“ORIGINAL CEMETERY & CHURCH GATE FINDS NEW USE”

When the deadfall was cleared from the Church grounds in 2016, one of the original gates was discovered. Although overgrown with small trees and caragana bushes, the gate was still all in one piece. The exact date that the fence and gates were installed is unknown however it would be safe to say that it occurred in the early 1920's.

Over the years, the south fence had been removed and the west gate must have been left in the trees. Several new locations were considered however it was decided the gate should stay on the west side. As there is an existing sign at the west entrance that had wood posts, a decision was made to affix the gate to those posts. A small sign stating “Original Gate” was placed on top of the gate. The plan is to have climbing flowers planted at the foot of the gate. Hopefully next year, the gate will be laden with beautiful blooms.
